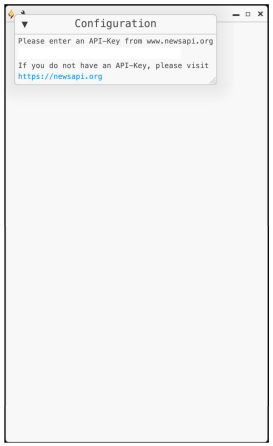
How to Use



Running for the First Time

When loading Prometheus for the first time, you will find this prompt. To begin using Prometheus, follow these steps:
1. Visit NewsAPI.org
2. Create your own account
3. Copy your API key
4. Paste in Prometheus

After this, just press enter and you will have access to Prometheus!

Changing Topics

To change topics, just click the menu at the top of the application.
